Experiential Learning

Our objective is to develop our understanding, appreciation and respect for differences around the world - to touch, taste, see, hear and learn...

Sharing Experiences

We will share our experiences with students and organizations we meet along the route and try to ignite an entrepreneurial spirit and a global mindset...

Diabetes A challenge

Also, since one of our team-members has been a type 1 diabetic for more than 50 years, we will promote the idea that diabetes is no hinder in making dreams come true... As long as you maintain a good control and take care!
